LINES OF SUPERVISORY RESPONSIBILITY
2013-2014

Grady Memorial Hospital, Department of Psychiatry

At Grady, the resident will report to the Chief Resident at Grady. The Attending of record or the Attending on Call are available if after hours or for an emergency. If the Attending or Attending-on-Call should not be available, the Chief of Service, Dr. McDonald, can be paged for Grady issues and then the Crisis Intervention Service, Dr. Barbara D'Orio.* All faculty report to the Chief of Psychiatry at Grady. Residents also receive supervision/consultation from the Chief Resident and psychiatry faculty.

> * For Grady outpatient services, the resident reports directly to the attending of record in the mental health clinic, who reports to Dr. Wootten, who reports to the Chief of Service. For C/L, the resident reports to Dr. Schwartz, who reports to the Chief of Service.

Emory University Hospital

Intake and Assessment Office will assign inpatients to an Attending service with an assigned resident for EUH (CRM). The Emory Chief Resident is available by page and cell phone to assist residents with clinical and administrative issues. The resident will report directly to the Psychiatry Attending for all inpatient care issues or the Attending on Call if after hours or for an emergency. If the Attending or Attending-on-Call should not be available, Dr. Garlow should be contacted via cell phone immediately (number has been given to all residents and unit staff) for all issues regarding the adult inpatient service or the emergency department. All faculty ultimately report to the Chief of Psychiatry at Emory.

Psychiatry residents will be assigned to EUH for C/L rotations. When consults are performed, Ray Young, MD, Wendy Baer, MD, or Steven Garlow, MD, PhD, will act as the supervising attending and will cross-cover as appropriate.

Outpatient Psychotherapy Training Program

PGY-2, PGY-3, and PGY-4 Psychiatry residents treat outpatients through the Outpatient Psychotherapy Training Program (OPTP). Andrew Furman, MD is the administrative supervisor for this rotation. Clinical supervision is also provided by OPTP assigned supervisors. If at any time a clinical issue should arise that raises question, contact Dr. Furman. If he is not available, you may call Carol Levy.

Wesley Woods Geriatric Hospital

The resident reports directly to the Psychiatry Attending for all inpatient care issues or the Attending on Call if after hours or for an emergency. If the Attending or Attending-on-Call is not available, Dr. Robert Cohen can be paged. As back-up, Dr. Brown can be paged for WWGH issues. All faculty report to the Chief of Geriatric Psychiatry, Dr. Cohen.

Atlanta Veterans Administrative Hospital

At the VA Inpatient Service, the resident reports directly to the attending of record on the inpatient unit, who reports to the Director of Acute Mental Health Services, who reports to the Chief, Mental Health Service Line. Residents also receive supervision/consultation from the Chief Resident and other psychiatry faculty.

For the VA Substance Abuse Service, the resident reports directly to the attending of record in the substance abuse program, who reports to the Director of Substance Abuse, who reports to the Chief, Mental Health Service Line. Residents may also receive supervision/consultation from the Addiction Psychiatry Residents (PGY-5), Chief Resident, and other psychiatry faculty.

For VA Outpatient Service, the resident reports directly to the attending of record in the mental health clinic, who reports to the Director of General Mental Health Programs, who reports to the Chief, Mental Health Service Line. Residents also receive supervision/consultation from the Chief Resident and other psychiatry faculty.
