

??

***Would you like to earn experience hours to qualify for the BABC<sup>®</sup> exam? Do you want to use ABA with individuals with autism spectrum disorder (ASD) across the age range in a variety of contexts?***

**If so, The Emory Autism Center (EAC) is the placement for you!**

At the EAC, you will be able to gain BACB required experience hours aimed at how to implement BACB<sup>®</sup> 4<sup>th</sup> Edition Task List (TL4). Emphasis will be placed on providing ABA in natural environments with for individuals with ASD.

Placements at EAC require:

- A minimum of 15 and maximum of 30 hours per week
- A minimum commitment of 40 weeks
- A commitment to working with individuals with ASD in natural community environments

The EAC will provide:

- Natural environments by age group for clinical implementation of ABA
  - early childhood
  - school-age
  - adolescents/adults
  - in-clinic
  - in community
  - around Emory campus
- ✓ 1 hour of group supervision per week through a lab class conducted by a BCBA-D (focus on technical aspects of TL4 items)
- ✓ 1-2 hours of individual supervision per week by qualified BCBA or BCBA-D (focus on clinical implementation of TL4 items)
- ✓ In-program supervision depending on EAC program assigned
